

The Association is dedicated to safe, state-of-the-art, innovative surgeries and healthy lifestyles for women of all ages. In a nurturing environment, the physicians and staff strive to promote a partnership in your healthcare and make every effort to bridge the sterile science of diseases with your emotional, physical, and spiritual needs. Everyone is confronted with difficult healthcare decisions at one time or another. You'll want your physician and staff to have the knowledge, experience, and sensitivity to guide you safely through the decision-making process.

The Association of Minimally Invasive Gynecologic Surgeons provides comprehensive gynecologic office and surgical healthcare. The physicians are certified in laparoscopy and hysteroscopy and are experts in advanced gynecologic surgery. Doctors Whitted and Pietro are national speakers, trainers, and researchers in advanced surgical techniques. In addition, Doctors Pietro and Whitted are Certified Menopause Clinicians who educate, train, and research the science of menopause. Finally, they are certified in advanced colposcopy.

Doctors Whitted and Pietro offer expert education and care in the following areas:

- | | |
|----------------------------------|-----------------------------|
| Abnormal Paps (HPV) | Fibroids (Leiomyoma) |
| Abnormal Menstrual Cycles | Loss of Urine |
| Bladder Prolapse | Menopause |
| Chronic Pelvic Pain | Ovarian cysts |
| Endometriosis | Osteoporosis |
| Ectopic Pregnancy | Rectocele |
| Family Planning | Uterine Prolapse |
| | Vaginal Prolapse |

*****Evaluation and Diagnosis of Gynecologic Cancers**

If you need surgery, The Doctors in the Association perform most gynecologic surgeries with minimally invasive techniques to reduce hospitalization, recovery, scarring, discomfort and absence from work in most cases.

The Association of Minimally Invasive Gynecologic Surgeons

...dedicated to healthy lifestyles and safe, state-of-the-art surgery for women of all ages.

Women's Health Education

"Knowledge is Power"

The Objective of the Women's Health Education Program is to improve the wellness of women through comprehensive education.

The goal of the Women's Health Education Program is to impart and share the knowledge required to maintain your health through disease prevention, diagnosis, and treatment.

The result of our program is a partnership through educated discussion about your healthcare concerns.

Drs. Whitted and Pietro have extensive experience educating and developing state-of-the-art education programs about women's healthcare. They are noted speakers, authors, and researchers in women's healthcare; and at the University of Miami, they were innovators in education and curriculum development in Gynecology.

Drs. Whitted and Pietro share your concerns about your healthcare by investing their time, energy, and enthusiasm promoting educational programs. They have a wealth of cumulative experiences and draw upon these highlighting your educational experience.

Finally, they have brought together an office team in tune to your needs, concerns, and wishes. Please feel free to contact us to discuss your educational needs.
